Comments:

In what ways was the teaching fellow most effective? Why?

Comments
The TF was a highlight of the course. He was always available and provided great feedback on assignments.
Very nice, accessible and respectful
Ashutosh was my most helpful teaching fellow this semester! He gave such amazing feedback, was generous with his time outside of class, and supported me in feeling reassured throughout this course!
He was always there to help with my assignments and gave me timely feedback.
He was available to students outside of the class.
When I met with him outside of class he was always willing to help troubleshoot and explain how he would approach/had approached the work in the past. He was also really kind and encouraging.
Ashutosh did a great job as TF. He made himself quite available and I was able to schedule meetings with him outside of class several times. He never rushed our conversations and always did a great job ensuring I actually understood the material before moving on to another concept. He had really helpful insights in class based on his experience in the real world and effectively communicated these experiences without distracting from the class. I always felt comfortable approaching Ashutosh with any questions from class.

What recommendations would you make to the teaching fellow to strengthen their teaching and/or make the course more valuable?

Comments
Talk more about your applied experience with the course material.
Give feedback on all assignments
Maybe more written feedback on assignments?
I want to know more about his work and research. He didn't give us detailed, structured feedback on our submitted assignments.
More prompt feedback on assignments
